- versatile - can be mixed with fondant for various decorations.
- Model into desired decorations: figures, showpieces, and work of art
- Superior elasticity allows it to be rolled out ultra thin
- Combined with color. white professional GUMPASTE decoration add the final elegance to cake.

Direction for Use:

Knead to a smooth pliable Consistency

Simply roll out to desired thickness (a dough Sheeter can be used)

Allow to set and dry after forming

Always store the paste in original foil packaging in cool condition

Carefully open the bag and remove the desired amount of paste you require for the project you are working on. if the coloring the gumpaste, use paste or gel colors, not liquid colors, as this will cause the gumpaste to be soft and sticky. When working with the gumpaste, put a small dab of vegetable shortening on finger and knead into dusting of cornstarch to prevent the gumpaste from sticking to work surface. Drying time will be 2 to 5 hours depending on the size and type of project. This gum paste can be combined with rolled fondant to create a paste suitable for modeling, bow, drapes, etc. Always keep unused Gumpaste tightly wrapped to prevent drying out. Keep product in a cool environment. Gumpaste may be frozen .
